

I'm a biologist.

SO WHY DID I HAVE TO LEARN PHYSICS?

Good question, come find out in a new course offered Spring 2023!

Biomechanics

BIOL 495/595, 3 credits
Lecture: T/TH 2:00–2:50pm
Lab: T 3:00–4:40pm
Instructor: Dr. Emily Kane

- * Understand how animals move
- * Learn how mechanics affect what animals do and where they live
- * Use hands-on experiments with live animals to collect real data
- * Make sense out of PHYS 207

“Science isn’t about the things, but about the relationships among the things.”
Steven Vogel, *The Life of a Leaf*
